

GIAN CARLO NORIEGA

FULL-STACK DEVELOPER / CREATIVE TECHNOLOGIST / VIDEO EDITOR

Philippines • Remote-friendly • giannoriega4everything@gmail.com

PROFILE

Computer Science developer building production software and immersive digital experiences across full-stack web development, game prototyping, and visual storytelling.

TECHNICAL TOOLSET

PRODUCTION

TypeScript · React · Node.js · PostgreSQL · Tailwind CSS · JavaScript

PROFICIENT

Python · C# · Java · .NET · HTML/CSS

CREATIVE

Unreal Engine · After Effects · Sony Vegas · CapCut · Canva

SPECIALTIES

Full-stack development · Frontend · Backend APIs · Database architecture · UI implementation · Game prototyping · Video editing · Motion graphics

JOURNEY

● 2025 — PRESENT

FrogPOS

Founder / Full-Stack Developer

Designed, developed, and deployed a multi-tenant point-of-sale platform for Filipino businesses.

● 2025 — PRESENT

DevCon Philippines

Developer Community Member

Participating in the Philippine developer community and collaborative technology activities.

● 2022 — PRESENT

Video Editing & VFX

Producing visual and cinematic content using After Effects, Unreal Engine, and Sony Vegas.

● 2022 — 2026

Bachelor of Science in Computer Science

Coursework includes algorithms, databases, full-stack development, software engineering, and game development.

SELECTED PROJECTS

FROGPOS

Multi-tenant POS platform with offline-aware sales, ordering, inventory, kitchen, billing, and localization workflows.

PREPAVIEW

Gamified interview simulation prototype built with Unreal Engine gameplay systems, Blueprints, C++ integrations, and AI behavior.

RESTAURANT BOT

Accessible framework-free conversational ordering prototype using deterministic states and safe output rendering.
